PROJECTS

-
- **Complete responsive Personal Portfolio Website:**
A simple and dynamic e-portfolio website that highlights my personal info, technical skills and works along with my resume information. It is still under development with continuous updates.
 - **Developed an e-commerce website:**
A fully responsive e-commerce website which includes Headphones, Smartwatches, Speakers. This website was built by React.js, SCSS, JSX and Strapi for APIs. Although its not fully functional there still some part is under development.
 - **Developed a Spotify clone application website:**
Developed a Spotify clone application website, by using React.js, Tailwind CSS, Stripe and Supabase server. Fully responsive, from creating an account to subscription. Fully completed and fully functional.
 - **Developed a movie-recommendation website:**
A fully responsive movie recommendation website by using JavaScript XML and Sassy CSS. This website was built by React.js with React-router-dom and with APIs of TMDB. This website is fully functional.
