

SK ASPAK ALI

Software Engineer

Bhubaneswar

☎ +91 7655843136

✉ shaikhaspakali007@gmail.com

Professional Summary

Motivated Software Engineer with hands-on experience in VoLTE (IMS) testing, core IMS validation, and telecom network analysis. Skilled in Java, Python, and cloud technologies. Proficient in analyzing SIP and Diameter signaling using Wireshark. Eager to contribute to innovative software development and network engineering projects.

Experience

- Software Engineer Trainee | Technoshrine Infosolution
- Jul 2024 – Sep 2024

Completed training in SIP, IMS, and software testing. Gained hands-on telecom domain experience and worked on understanding VoLTE registration and call flow.

- Software Engineer | Nokia Pvt Ltd (Client: Vodafone Idea India Ltd)
- Oct 2024 – Apr 2025

Performed VoLTE UE registration testing, validated call setup and IMS signaling integrity. Conducted core IMS functional testing for voice, video, and messaging services. Supported HSS expansion and assisted in installation, configuration, and integration tasks.

- Software Engineer | Nokia Pvt Ltd (Client: Bharti Airtel India Ltd)
- May 2024 – Jan 2025, Apr 2025 – Apr 2026

Executed VoLTE and NLD testing, performed Wireshark trace analysis, and ensured network functionality across multiple circles. Troubleshoot SIP, Diameter, and IMS-related signaling issues to improve reliability.

- Software Engineer | Nokia Pvt Ltd (Client: Deutsche Telekom, Germany - DTAG)
- May 2026 – Present

Working on 1cIMS Solution Validation Strategy project involving SBC and CFX functional validation. Executing and validating IMS test cases manually and through DTAG's GTAF (Test Automation Framework). Performing end-to-end verification of VoLTE, roaming, SMS over IP, and emergency call scenarios. Analysing SIP, Diameter, DNS, and IMS signalling traces to validate call flows, troubleshoot issues, and ensure compliance with solution requirements.

Education

B.Tech in Computer Science & Engineering — Trident Academy of Technology,
Bhubaneswar (2020 – 2024)
CGPA: 8.3 / 10

Technical Skills

Programming: Python, SQL

Web Technologies: HTML, CSS, React.js, Next.js

Tools & Platforms: IntelliJ IDEA, VS Code, GitHub, Vercel, Oracle VirtualBox

Telecom & Testing: SIP, IMS, Diameter, Wireshark, SBC, CFX

Other: AWS Cloud, Linux, MS Excel

Certifications & Courses

- Data Analytics course — Code with Harry Tutorials
- SVT Integration Engineer Certificate — Nokia Service Portal
- AWS Cloud Practitioner — Amazon Web Services
- Full Stack Web Development — Udemy (Angela Yu)
- Java Data Structure Masterclass — Udemy (Elshad Karimov)
